prachipgadakh2003@gmail.com | +91 9322804704 | Nashik, India | LinkedIn

PROFESSIONAL SUMMARY

Software Engineer with 2 years of experience in developing secure payment solutions using C#, ASP.NET Core, Angular, SQL Server and Microservices Architecture. Skilled in RESTful API development, performance optimization, CI/CD deployments, and Agile methodologies. Experienced in building scalable fintech applications and merchant onboarding systems.

TECHNICAL SKILLS

- **Programming Languages:** C#, SQL, TypeScript
- **Backend Technologies:** ASP.NET Core Web API, Microservices, RESTful APIs, Entity Framework Core, Dapper
- **Frontend Technologies :** Angular, HTML, CSS, Bootstrap
- **Database:** SQL Server
- **Tools & Platforms:** Visual Studio 2022, SQL Server Management Studio(SSMS), Git, Grafana, Octopus Deploy
- **Methodologies:** Agile Scrum, CI/CD

WORK EXPERIENCE

WORLDLINE Global Services | Pune, India

June 2024 – Present

Associate Software Engineer

- Developed and enhanced **European Payment methods** including Paylater, BLIK, TWINT and PostFinance Pay using **ASP.NET Core Web API** contributing to secure online payment transaction processing.
- Architected and maintained **independently deployable microservices** for frontend, payment processing, and merchant onboarding, improving system scalability.
- Implemented efficient **data access layers using Dapper**, reducing query overhead and improving database interaction performance.
- Built and maintained Angular-based user interfaces for payment processing and merchant onboarding, enhancing user experience across applications.
- Designed and implemented merchant provisioning portals.
- Optimized SQL queries for payment data management, troubleshooting, and operational support.
- Executed 20+ zero-downtime production deployments via Octopus Deploy; monitored system health through Grafana, reducing incident response time.
- Served as Scrum Master, facilitating Agile ceremonies and team collaboration.

PROJECTS

- **Employee Management System**
Developed a full-stack Employee Management System using ASP.NET Core Web API, Angular, SQL Server and Entity Framework Core to manage employee records through CRUD operations.
- **Food-Order Website**
Developed a responsive food ordering website enabling customers to browse menus and place orders online using Angular, HTML, CSS, and Bootstrap.
- **Automated Structural Health Assessment of Bricks**
Developed a machine learning model using CNN and SVM algorithms to predict brick quality and assess structural health using image-based analysis - Python, OpenCV, Sensors, Machine Learning, Deep Learning.

EDUCATION

- **Pimpri Chinchwad College of Engineering**
B.Tech in Electronics and Telecommunication Engineering CGPA:9.11 | Aug 2020 - May 2024
- **Higher Secondary Education | Shramik Junior College, Sangamner** 90.62% | Feb 2020
- **Secondary School Education | S.G. Public School, Sinnar** 94.60% | Mar 2018

CERTIFICATIONS & ACHIEVEMENTS

- **Data Structure and Algorithms Certification:** Geeks For Geeks
- **Applied for a patent** in Automated Structural Health Assessment using Machine Learning.
- Received the **“Excellent Performance & Going the Extra Mile”** Award at Worldline for exceptional performance and contribution.
- Awarded **Best Academic Performance** during B.Tech studies
